Sir:

In response to the Notice of Termination dated May 29, 2003, Applicants respectfully request that the Examiner reconsider his decision terminating the proceedings of the subject application in view of the attached materials and the following remarks.

Applicants respectfully submitted that the Notice of Incomplete Nonprovisional Application dated February 15, 2001, was never received by the Applicants' undersigned representative. Applicants' undersigned representative has made a careful search of the entire file jacket for the subject application and the Notice of Incomplete Nonprovisional Application dated February 15, 2001, was not present. A review of the docket records also indicates that the Notice was never received. Submitted herewith is a re-created copy of our computer docket sheet for April 15, 2001, which would have

OFFICE OF PETITIONS

included an entry for responding to the Notice, if the Notice had been in fact received and a copy of the front of the file jacket which would also have been marked. Our firm's typical mail handling procedure is for all mail to be docketed as soon as it is received, and for the file jacket to be marked with due date items. In view of the submission of evidence showing that the Notice of Incomplete Nonprovisional Application dated February 15, 2001, was never received, withdrawal of termination of proceedings of the above-identified application is proper. Therefore, it is respectfully requested that the Notice of Termination be withdrawn and the application returned to pending status.

Further, it is petitioned that the subject application be granted its original filing date of December 4, 2000. In support of this request, enclosed is a copy of the stamped postcard receipt of December 4, 2000, by which receipt of the application papers for the subject application is acknowledged by the Patent and Trademark Office. As can be seen from the stamped postcard receipt, an application consisting of 35 pages of specification, declaration, drawings (17 sheets), assignment and small entity declaration were deposited in the Patent and Trademark Office on December 4, 2000, along with the required filing and recordation fees. It is respectfully submitted that a complete application was submitted to the Patent and Trademark Office on December 4, 2000, but it appears that the application papers were separated from the transmittal letter after being received in the Patent and Trademark Office. Further submitted as evidence are copies of the recorded Assignment papers which were returned to us. For the Examiner's convenience, we are enclosing a copy of all of the papers that were submitted on December 4, 2000.

In view of the attached evidence, it is respectfully requested that the application be granted its original filing date of December 4, 2000, and forwarded to the appropriate group for prompt examination.

In the event that any fees are due in connection with this paper, please charge our Deposit Account No. 01-2300.

Respectfully submitted,
